

MAHMOUD SALAH

Electronics Failure Analysis Engineer | PCB & Hardware Diagnostics

Gebze, Kocaeli, Türkiye | +90 538 024 64 30 | Mahmoudsalah3015@gmail.com

Portfolio: the-mosalah.github.io/The-Mosalah/ | GitHub: github.com/The-Mosalah | LinkedIn: linkedin.com/in/the-mosalah

PROFILE

Electronics hardware professional with 6+ years of hands-on experience in smartphone PCB diagnostics, microsoldering, BGA rework and root-cause analysis. Experienced in schematic analysis, power-domain and signal tracing, technical documentation, technician mentoring and repair workflow improvement. Seeking failure analysis, hardware reliability, quality or repair process roles.

TECHNICAL SKILLS

PCB troubleshooting; electrical measurements; schematic and boardview analysis; PMIC and power domains; UFS/eMMC; DDR/RAM; RF and CPU-related troubleshooting; SMD and BGA rework; microsoldering; Cadence PCB tools; OrCAD; technical documentation; team leadership.

RELEVANT EXPERIENCE

vivo | April 2022 - Present

Senior Smartphone PCB & Motherboard Repair Engineer | Gebze, Türkiye

June 2024 - Present (internal transfer from vivo Egypt)

- Diagnose motherboard failures using electrical measurements, schematic analysis and structured fault isolation.
- Trace signals and power domains with Cadence PCB tools, OrCAD and boardview resources.
- Perform advanced component-level repair and mentor technicians in diagnostic and rework methods.

Mobile Phone Hardware Repair Team Lead | 10th of Ramadan, Egypt

April 2022 - June 2024

- Led technicians and delivered practical training in microsoldering, diagnostics and repair standards.
- Improved repair workflows and supported quality and continuous-improvement activities.
- Investigated complex component-level motherboard faults and shared diagnostic knowledge.

Mobile & Electronics Repair Technician | Ismailia, Egypt

Repair Shop | October 2019 - July 2021

- Repaired smartphones, laptops and gaming consoles, including component-level PCB work.
- Diagnosed hardware and software faults, trained new technicians and maintained repair documentation.

ADDITIONAL EXPERIENCE

Egypt Gas - Document Control Specialist | August 2021 - August 2022

Managed technical documentation, indexing, version control and traceability; organized digital records and supported reporting and audits.

VogueVelocity - Industrial Engineer | June 2018 - September 2018

Analyzed production workflows, material flow and workstation layouts; supported process improvement and operational reporting.

EDUCATION AND TRAINING

Suez Canal University - Bachelor's Degree, Business/Commerce | 2016 - 2019

Certifications / training: CompTIA A+ (220-1001 / 220-1002); IPC Soldering Safety; ITI E-Learning Fundamentals.

Languages: Arabic, Turkish, English, French.
